

Outreach & Education

The City of Lawrence Solid Waste Division offers outreach and education opportunities to all groups, and can do onsite tours of the City's Composting Facility and Household Hazardous Waste Facility. Each presentation is tailored to meet the group's needs and interests.

Outreach & Presentations

Our staff is available to give presentations at your school or meeting. We can present on recycling, hazardous waste, composting/vermicomposting, and other solid waste topics. Additionally, we are available to table at your public event.

Facility Tours

The following sites are available for tours: Composting Facility and the Household Hazardous Waste Facility.

Demonstration Areas

At the City's Recycling Facility, the following demonstration areas are available for viewing: vermicomposting bin and a variety of outdoor composting bins. Presentations and workshops may be given at this facility.
