Guidelines for Affordable Housing Eligibility & Compliance Reporting

1. Certification of Tenant Eligibility:
Potential/continuing affordable housing tenants must be certified as eligible for occupancy of an affordable housing unit through the Lawrence Douglas County Housing Authority (LDCHA). The property Landlord/Owner should instruct potential/continuing affordable housing tenants to contact and work directly with the LDCHA for income verification and eligibility certification. (See attached LDCHA Certification Services information sheet for details.)

Sample Tenant Notification Language for Affordable Housing Eligibility Determination:

You have applied to live in an affordable housing unit, governed by income requirements specified by the City of Lawrence. To determine eligibility for occupancy in an affordable housing unit, this program requires verification of all income and asset sources, as well as other claims of eligibility. Eligibility determination is done prior to lease signing, and if such eligibility is granted, each subsequent year you remain in the unit.

Household income is verified through the Lawrence Douglas County Housing Authority. Please contact the Housing Authority directly to set up an appointment and identify which documents you need to provide for income verification.
